SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Honorable Sir:

Pursuant to 37 C.F.R. 1.97(c)(2), record is hereby made of information which the Patent Office may wish to consider in connection with its examination of the above-identified application. A completed PTO-1449 form is enclosed, together with copies of the foreign patent documents and non-patent literature (if any) cited therein.

Please be aware that the citation of two documents on the International Search Report appear to be erroneous: U.S. Patent to Winner et al is cited as 5,888,718, it is believed that this should be cited as 5,588,718, since 5,888,718 is a patent to Maskasky et al and is directed to a "modified peptizer for preparing high chloride (100) tabular grain emulsions." U.S. Patent to Walenty et al is cited as 558,409, it is

believed that this should be cited as 5,558,409, since 558,409 is a patent to Moradelli and is directed to a railroad "car-coupling." U.S. Patents Nos. 5,588,718 and 5,558,409 as well as all other documents cited in the International Search Report were included with the Information Disclosure Statement filed July 26, 2002.

U.S. Patent No. 5,273,348 claims priority to the cited Japanese Patent JP 5-77710; the undersigned does not have any other English translation of JP 5-77710.

Please charge Deposit Account No. 13-0005 in the amount of \$180.00 to cover the fee pursuant to 37 C.F.R. 1.17(p). A duplicate copy of this sheet is enclosed.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read 'Allen W. Inks', written over a horizontal line.
